

Cattle & Dairy Farming

Have a go at tumbling cheese in an imaginary churn. How do you need to move your arms?

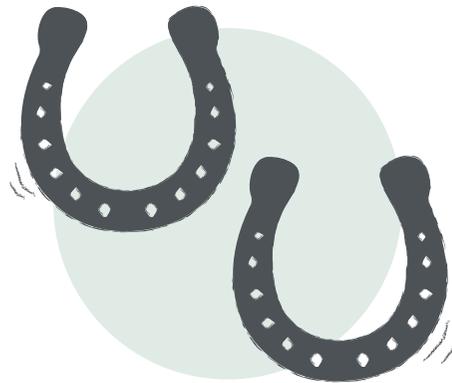

Richard Riley

Can you spot any musical instruments in the gallery? What sounds do you think they would make?

Blacksmiths

Can you make the sound of horseshoes on the ground?

Entrance Hall

We have a special bicycle called a penny farthing on display. How would you ride a bike like this – how do you sit, what do you do with your arms and legs?

Modern Caving

Pull on your caving equipment and turn on your headlamp... we're heading into the cave. What can you see? Move through the gallery like you would move through a cave – do you have to duck down or squeeze through?

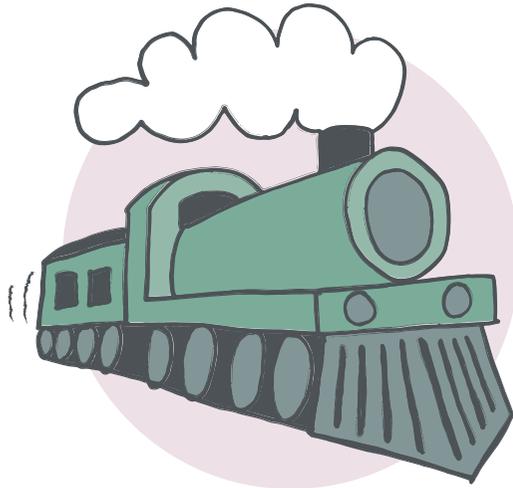

Moorland & River Birds

Craven has lots of interesting plants and animals – can you spot the birds on display? Are you able to fly like a bird? What sounds do they make?

Railways

Railways are an important way that we move around from place to place. Can you move like a train through the gallery? What noise does a train make? Now try to be a canal boat. How do they move differently?

School & Learning

Children used to use slates and pencils to practise their writing at school. Can you act out writing on a slate?

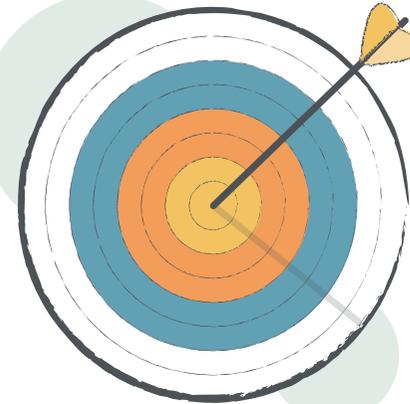

Lead Mining

Miners used to use hammers and picks to dig through the earth and find precious metal. What action would they have made with their tools?

Shakespeare's First Folio

This important book of Shakespeare's plays is very old and fragile. How would you turn the pages carefully?

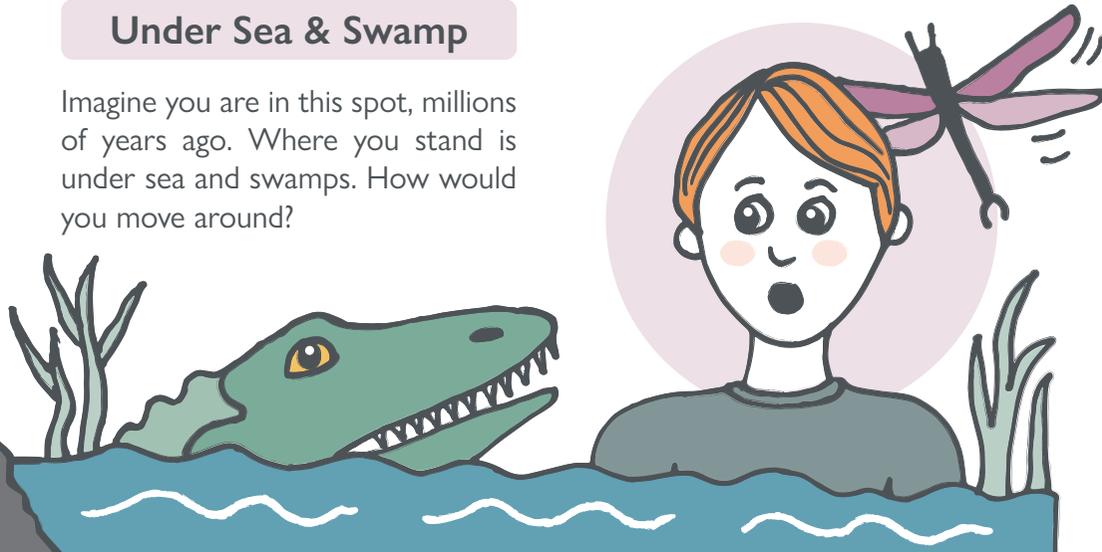

Noteable People

We have objects from two sportspeople who competed at the Olympics games. Can you pretend you are rowing or shooting a bow and arrow?

Under Sea & Swamp

Imagine you are in this spot, millions of years ago. Where you stand is under sea and swamps. How would you move around?
